

DIAZ REVOLT GROWS; MADERO IS DOOMED

Nephew of Ex-Tyrant Proclaimed Provisional President in Vera Cruz.

3,000 TROOPS UNDER ARMS

President Said to Be Preparing to Escape From Mexican Capital.

VERA CRUZ, Mexico, Oct. 17.—Felix Diaz, nephew of Mexico's former President, recently a Colonel in the Federal army and more recently Chief of Police of Mexico City, is proclaimed to-night throughout the State of Vera Cruz as Mexico's provisional President. Diaz has more than 3,000 troops under his immediate command in Vera Cruz city. His forces have already pushed to within forty miles of the national capital, and the gunboats he captured here yesterday are on their way to attack Tampico. Late news received here to-night from Mexico City indicated Madero was preparing to evacuate the capital hastily and proceed north to his home in Monterrey.

Col. Diaz has a huge cache of arms and ammunition in Vera Cruz. He has the backing of his uncle's millions and did not undertake the revolt without vast war stores.

The Madero Government is doomed. Gen. Diaz this evening declared Gen. Bernardo Reyes, now held in the military prison in Mexico City, will be a member of his Cabinet, and added he would hold Madero strictly accountable for the welfare of Reyes.

Col. Jose Diaz, cousin of the now insurgent leader, who until to-day was an officer in the Federal army, went over to the new cause and took not only his own but three other regiments of Government troops with him.

Diaz had pushed his advance this afternoon toward the capital to Pachuca. Diaz's forces to-night seized the cable line to the United States. Simultaneously the two gunboats captured here by the new insurgents commanders proceeded to capture Tampico.

After a stormy session of the Congress last night, during which Deputy Moreno demanded the resignation of the Cabinet and was quashed by the president of the Chamber, refusing to permit discussion, Moreno again this afternoon attacked the Government and insisted peace could come to Mexico only through either the resignation of Madero or the intervention of the United States.

Reports from all parts of southern Mexico, as well as from the northern States, indicate that Madero is rapidly losing his command of the situation. It is the opinion here that his regime is on the verge of toppling before the already powerful movement of the exiled President's nephew, and that it will require nothing short of a military and diplomatic miracle to save the Presidential robes of Madero.

Diaz has 3,000 troops under his command, while the rebel troops loyal to his cause are within forty miles of the national capital. He is amply supplied with ammunition and is backed by his uncle's millions. It has become evident that Diaz did not undertake this revolt without elaborate preparation.

Besides the force that Diaz has here Gen. Aguilar, one of his followers, has 1,000 men at Jalapa on the National Highway between Vera Cruz and Mexico City. Aguilar is recruiting throughout the State and men are flocking to join his force.

Doubts as to the specific object of the Diaz revolt were removed when he was proclaimed Provisional President by Col. Jose Diaz Ordaz, his cousin, and commander of the Twenty-first Infantry, stationed here.

WATCH FOR FILIBUSTERS.

Schooner Being Fitted Out on Mississippi Sound, It Is Reported.

MOBILE, Ala., Oct. 17.—The United States revenue cutter Winona is making preparations to leave at a moment's notice for Mississippi Sound, where it has been reported that a schooner will load sinews of war for Mexican revolutionists.

The cutter is just up from Pascagoula, where she has had the schooner L. N. Dantzer under surveillance for the past few days. The Dantzer is said to be fitted out for filibustering and reports have reached the Winona's officers that she will slip out of the sound with munitions of war.

Capt. Emile Fremont, who has taken part in expeditions which have caused the Federal officers much worry and who is known as one of the most daring sea captains on the coast, is in command of the Dantzer. It was stated that Federal agents had found at New Orleans a big shipment of arms and cartridges which were awaiting shipment to Mexico. The arms are being closely watched and if they are moved secret service men will follow.

That the proposed expedition, which has so aroused the secret service agents, will be directed against Mexico is the belief of Consul Roberta Gayon, representing Mexico at this port. Gen. Diaz is believed to have gotten along the Gulf coast and it is understood that his attack on Vera Cruz was to open a port to which munitions of war could be despatched. As the result of the Diaz revolt, Consul Gayon stated that it will be necessary to watch the coast most closely.

AMERICANS UNPROTECTED.

Cruiser Des Moines to Be Sent to Vera Cruz at Top Speed.

WASHINGTON, Oct. 17.—The capture of Vera Cruz by revolutionists under Gen. Felix Diaz, nephew of the former President, has been accepted in official circles here today as the most important development in the Mexican situation in many weeks.

The cruiser Des Moines to-night, upon her arrival at Progreso, will receive orders to return immediately to Vera Cruz. The Des Moines cannot reach Vera Cruz, however, in less than forty-eight hours, making her due there Saturday night at the very earliest. In the meantime the situation is rendered acute by reports from the city of Mexico that the Federal forces were determined to make the attempt to recapture Vera Cruz to-day.

Until the arrival of the Des Moines at Vera Cruz the hundreds of Americans in Vera Cruz will be without positive assurance of protection of their life and property.

A bill has been introduced in the Mexican Chamber of Deputies calling for the

resignation immediately of the entire Cabinet of the Madero administration.

The State Department is informed that John T. Cameron, the American cattle dealer kidnapped and held for ransom by Gen. Salazar, has been released upon the giving of \$1,250 which he had on his person when captured. Previously the rebels had demanded \$10,000 for his freedom and it is reported that Mrs. Cameron, who is at Juarez, had sent the money to Salazar.

Arthur McCormack, manager of the Pajoneros ranch, has been ransomed. Five thousand dollars was demanded and received by rebels for his release.

TO JOIN FORCES OF DIAZ.

Orozco Revolutionists Are Leaving for Vera Cruz.

EL PASO, Tex., Oct. 17.—Revolutionists who have been making their home in El Paso since the Orozco revolution has been on its last legs, are preparing to go to Vera Cruz by way of New Orleans to join the Felix Diaz revolution, which is now in control of that port.

The Felix Diaz junta here, which has been active for the last two months, is arranging for transportation for the former officers under Orozco in order that they may accompany the recruits which are being smuggled out of here for Vera Cruz by way of the Gulf ports. There is little doubt that Orozco has gone to Vera Cruz for a consultation with Felix Diaz and his lieutenants regarding the status of the northern revolutionary leader in the newest revolution.

As soon as the Federal court discharges Pasquale Orozco, Sr., who is now on trial in the United States court on the charge of neutrality violation, he will also go to southern Mexico to join forces with Diaz in his effort to overthrow Madero. Other revolutionists here, including A. Robelo, former chief of staff to Orozco; David Fuente, chief of artillery, and Braulio Hernandez, Madero's secretary of State in Chihuahua, are all preparing to go to the front if they can raise funds sufficient to get out of the United States.

According to these men, all of whom were followers of Vasquez Gomez, their leader will be nominated for the first President of the republic after Felix Diaz serves his time as provisional President. It is expected that Huerta, Aubert, Riquelme, Biano and Sarlinas will also join the revolution when it sweeps north. Huerta is now in Mexico City and has been joined by Rabago.

MANY DIE IN MEXICAN STORM.

Gulf Coast Swept by Hurricane—Islands 10 Feet Under Water.

MATAMORAS, Mexico, Oct. 17.—The tropical hurricane which swept the upper Gulf coast of Mexico last night and yesterday caused a heavy loss of life and the destruction of much property. Moorage reports were received here to-day from points as far as Soto La Marina, over 150 miles away, and they tell of desolation caused by the terrific wind and overflow of waters of the Gulf. In some localities the inundation swept inland for twenty-five miles. Scores of little villages along the coast were destroyed.

Nearly all the town of Soto La Marina was swept away. Among the nearby towns to Matamoros which were destroyed were Santa Teresa and San Fernando. The chain of islands lying between the Gulf and the Laguna Madre were about ten feet under water during the height of the storm and it is thought all persons and live stock upon these islands were drowned.

Relief expeditions have been ordered to the scene of the disaster by the Governor of the State of Tamaulipas.

SIMONE GETS \$2,000 DAMAGES.

She and Husband Win in Bogus Emerald Swindling Case.

PARIS, Oct. 17.—The civil tribunal today awarded Mme. Simone, the actress, and her husband, Claude Casimir-Perier, \$2,000 damages, the full amount for which they sued some South American explorers who had swindled them in that sum through some bogus emeralds. The explorers were named Hogler and De Graeve. They had some emeralds, which, they asserted, they had found in Colombia, and M. Casimir-Perier advanced \$2,000 to aid in further search. The men disappeared and have not since been heard of. It is reported that one of the Hoglers died afterward. The judgment to-day was given by default.

Experts testified that some of the emeralds were bogus, while others of the value of \$1,400 had been filched from the mines of the Moso mine in Colombia, which is Government property.

POISON TO AVENGE HIGH RENT.

Deadly Lozenges Distributed as Medicine Samples.

MILAN, Oct. 17.—Criminals or lunatics who up to the present have not been traced have been sending to house owners in the last few days sample lozenges in capsules which were nominally advertisements for a cure for indigestion. Many serious cases of poisonings have resulted from the use of the lozenges. The police have collected 2,000 of the capsules. The public analyst found that they contained cyanide of potassium. It is supposed the outrage was perpetrated in revenge for a recent increase in house rents.

AMERICAN CONSUL A SUICIDE.

W. W. Kitchen, at Laguna, Canary Islands, Kills Himself.

WASHINGTON, Oct. 17.—The State Department today was told today that William Whitney Kitchen, United States Consul at Laguna, committed suicide last night by shooting himself with a revolver. He was a sufferer from chronic heart disease.

Kitchen was a Canadian by birth, having been born in Toronto on April 6, 1875. He was naturalized in Buffalo in 1908. He was appointed to his post in Tenerife on March 2 last year.

GENERAL WAR IN BALKANS BEGINS

Continued from First Page.

fort at Preveza had orders to sink any Greek warships attempting to enter. The Greek squadron lay outside ready to give assistance if the gunboats were attacked in the passage of eight miles.

The Turkish shore bristles with forts, some of which were recently armed with heavy guns. The gunboats entered with their lights out. When they were under the muzzles of the Preveza batteries, only 1,000 feet distant, they saw Turks working on entrenchments by the light of bonfires.

The glare of these apparently prevented them from detecting the gunboats, for not a shot was fired. The ships slipped safely past the batteries and anchored at Volos.

The Admiralty considers this a daring feat and was greatly relieved to learn of the safe arrival of the gunboats at their destination.

The anxiety to get the gunboats in was due to the fact that a Turkish torpedo boat which escaped the raid of the squadron under the Duke of the Abruzzi at the opening of the war between Turkey and Italy and two steam launches which are armed with rapid fire guns are inside the bay on the Greek shore and are therefore at the mercy of the gunboats.

TURKEY HURRIES TO ATTACK.

Greece Will Be Included in Declaration of War.

SPECIAL CABLE DESPATCH TO THE SUN. CONSTANTINOPLE, Oct. 17.—Turkey has declared war on Bulgaria and Serbia. The expected has happened, and Turkish troops all along the Bulgarian and Serbian frontiers are hurrying to engage their enemies.

The Sultan gave the Bulgarian and Serbian Governments two hours to serve further ultimatums. The Porte asked the representatives of the little States to leave Turkey when the formal notification of war was delivered at the legations.

In an interview this afternoon Nouradounghian Effendi, the Minister of Foreign Affairs, said in regard to the omission of Greece from the declaration of war: "Greece had not attacked us, so we did not declare war on her when we declared it on Serbia and Bulgaria, but we learned that Cretans had been admitted to the Greek Chamber of Deputies and we regarded this as a casus belli and war will now be declared on Greece."

In the declaration Turkey blames Serbia and Bulgaria, saying that although the Porte desired peace war was forced upon her by the actions of the Balkan States.

The War Department has issued a list of ten skirmishes on the Bulgarian frontier since October 1. It accuses the Bulgarians of being the aggressors in every instance.

Orders were given here for a general forward movement of the Turkish troops. The War Minister, Nazim Pasha, was careful to make it plain in his orders that no offensive movement was to be made against Greece. At various points along the Serbian and Bulgarian frontiers fighting began this afternoon, consisting for the most part of outpost firing.

SERBIA DECLARES WAR.

King Peter Orders Troops to Advance—Clash on Frontier.

SPECIAL CABLE DESPATCH TO THE SUN. BELGRADE, Oct. 17.—Serbia has declared war on Turkey. She sent the declaration to the Serbian envoy at Constantinople and notified the various Powers. King Peter has ordered the troops to advance.

BULGARIA STILL WAITING.

Cabinet in Session Constantly, but No Declaration of War.

SPECIAL CABLE DESPATCH TO THE SUN. SOFIA, Oct. 17.—The Cabinet is in constant session and is continually telegraphing to the capitals of the other allies at Belgrade and Athens. Bulgaria has not yet declared war.

King Ferdinand and his staff have left for the headquarters of the Bulgarian army mobilized along the Turkish border.

Turkey's declaration of war, it is said, was not expected by the Balkan States so soon. Military men here say, however, that Bulgaria and Serbia will be ready to meet the Turkish army advancing toward the borders. It is understood that the mobilization of the two armies is completed, but no general engagement is expected for some days.

Thereafter and Kirdjali are the points named on the Bulgarian frontier where fighting occurred. Kirdjali is probably the scene of the Turkish invasion from Kilkilisse, near Adrianople.

The fighting near Prishtina is apparently identical with that at Popolatz, reported earlier in the day, when the Serbians claim the Turks had 200 killed and wounded.

BARON VON RADOWITZ FREED.

German Nobleman's Family Pay Debts and Fraud Charge Dropped.

SPECIAL CABLE DESPATCH TO THE SUN. PARIS, Oct. 17.—Baron Clement von Radowitz, nephew of the late German Ambassador at Madrid, who was arrested last Saturday on charges of defrauding tradespeople out of large sums of money, the total of which is said to be about \$100,000, was liberated provisionally to-day. The family of the young man settled with his creditors, who, their object having been obtained, probably will drop the case.

When the Baron first was arrested it was stated that he obtained credit everywhere by producing a will made by his grandmother, which provided that when he reached the age of 30, which he did on September 22, he was to receive \$250,000. When his creditors did not receive their money about that time it was alleged that the will was fraudulent and the Baron was arrested. Afterward it was stated that the will was genuine and counsel for the Baron applied for his release on bail. The Magistrate refused to grant this request on the ground that the prisoner had no fixed domicile in France.

The arrest of the Baron caused a great sensation in the German colony in Paris. It is known that he had been very extravagant, but all his friends declared that he was innocent of fraud.

GERMANY'S OIL PROBLEM.

Financiers at Odds and Outcome Uncertain.

SPECIAL CABLE DESPATCH TO THE SUN. BERLIN, Oct. 17.—The discussion of the merits of the proposal to establish an imperial petroleum company has become hopelessly obscure through the dispute between the various groups of interested financiers.

The German Petroleum Share Company, after participating in the negotiations for the Government scheme, concluded on October 4 a fresh contract with the Standard Oil Company. This is much criticized and defended from rival viewpoints. It is impossible to see as yet whether the conflict between the banks will continue or will result in a compromise.

PARTY HIT BY TRAIN; 3 KILLED.

Three Injured When Roar of Freight Drowns Other Sounds.

MARSHFIELD, Ohio, Oct. 17.—Three persons were killed, one was fatally hurt, two less seriously and one escaped injury near Harmon, five miles south of here, to-night when a Wheeling and Lake Erie passenger train going backward ran down a party of seven returning from the Tuscarawas county fair at Canal Dover.

The dead are John Abel, 28; Miss Marie Smith, 16, and Mrs. Lena Smith, 27, all of Somerdale.

It was not until the train reached Brewster that the crew knew of the accident. Blood was then seen on the rear coach.

The party was walking along the eastbound track and at the approach of a freight train crossed to the west-bound. The rear of the eastbound train passing deadened the sound of the approaching passenger train.

BARS ROUGE AND LOUD HOSE.

High School Girls Told to Wear Black or Tan Stockings.

Miss Oldham, who has charge of the girls in the Bayonne, N. J., high school, made some head to foot criticisms yesterday. She addressed the girls saying: "You girls are too prolific in the use of paint and rouge and you will have to stop the practice at once. We do not care to be treated to moving pictures in this school and neither do we want any Galateas or living oil paintings around here. This is a public school and not an art gallery. Besides, I think the complexion of the average American girl is such that it is harmed instead of improved by artificial devices."

Then Miss Oldham lectured the girls on their clothing. She said many of the girls had got into the habit of wearing hose of too loud a color and announced that in the future hosiery and shoes would be confined to black and tan colors.

Several of the schoolgirls will take up the matter of black and tan shades with the Board of Education.

She testified that she had heard her husband had gone about town telling his friends that his wife was a drunkard. She said she taxed him with this and denied ever having made any such remark.

The Belted Overcoat for Men

Now that the thermometer has had a sinking spell, let's talk of overcoats.

First, there's the fabric to consider—the weight, texture, design and color.

Fortunately for you this season, variety is the thing in overcoatings.

There are blues, browns, tans, grays and the new Cambridge cloth, and a wonderful collection of rough novelty mixtures, all in varying weaves and weights.

But the big feature of this season's overcoat styles is the belted back, in any one of a half dozen variations.

The belt may be sewn on plain, embellished with a button or two, divided in the center, or made in three piece effect, but to be en courant it must be belted one way or another.

Particularly for Fall wear, the best bet is a garment cut a little below the knee, Raglan or square shoulders, patch or slash pockets, and an abbreviated belt which gathers the garment into a folded effect at the waist.

Smart is not
